Significant Event:

- 1. On Tuesday, November 11, 2014, the sworn members of Blades Police Department completed the third annual firearms re-certification shoot at the Bridgeville Rifle and Pistol Club. One day and night COPT qualification shoot was conducted.
- 2. On Thursday, November 13, 2014, Chief Edwin Cooke attended the Delaware Police Chiefs' Council meeting held at the Dover Police Department in Dover, Delaware.
- 3. On Monday, November 24, 2014, Chief Edwin Cooke volunteered to help package over 10,400 plus Thanksgiving boxes at the Mountaire Poultry Plant in Selbyville, Delaware.
- 4. On Tuesday, November 25, 2014, Chief Edwin Cooke responded to the Dagsboro Church of God in Dagsboro, Delaware to pick up eleven (11) Thanksgiving boxes that were distributed to eleven families in the limits of Blades, Delaware by the Blades Police Department.
- 5. On Tuesday, November 25, 2014, the Blades Police Department networked with the local Food Lion in Seaford, Delaware to distribute forty (40) food boxes to families in the limits of Blades, Delaware. These food boxes continue to be given out until the end of the year.
- 6. Peace Officer Intranasal Naloxone Program On August 8, 2014, Governor Markell signed legislation authorizing law enforcement officers to carry Naloxone, a prescription drug that counteracts the effects of opioid related overdoses. This law allows police officers who have completed a Department of Health and Social Services approved training program to receive, carry, and administer the drug naloxone. Immunity is provided to police officers who administer naloxone in good faith. Participation in the POINP is optional and at the discretion of the police agency. See the provided document attached to this monthly report,

MEDICAL SERVICES

Peace Officer Intranasal Naloxone Program

On August 8th, 2014, Governor Markell signed legislation authorizing law enforcement officers to carry Naloxone, a prescription drug that counteracts the effects of opioid related overdoses. This law allows peace officers who have completed a Department of Health and Social Services approved training program to receive, carry, and administer the drug naloxone. Immunity is provided to officers who administer naloxone in good faith. The Department of Health and Social Services, Division of Public Health, Office of Emergency Medical Services has been identified as the lead office for this program.

A State of Delaware Program Implementation Guide is being developed for use by Peace Officer agencies. The Implementation Guide includes and approved training program, list of mandatory equipment, protocol, quality assurance and documentation requirements for inclusion in this program.

Law Enforcement agencies intending to participate in the intranasal naloxone program must:

- 1. Notify the Office of Emergency Medical Services in writing of their desire to participate.
- 2. Complete the State Office of EMS Peace Officer Agency Naloxone Program Agreement
- 3. Develop written policies and procedures for the intranasal naloxone program that are consistent with State and local protocol. This shall include, but not be limited to the following:
 - Policies and procedures for the EMS training, credentialing and continuing education
 - Documentation of credentialed users
 - Appropriate patient documentation
 - A defined quality assurance program, including appropriateness review by the medical director
 - Policies and procedures for:
 - o Inventory
 - o Storage, including environmental considerations and security
 - o Proper disposal of medication and administration devices
 - A sample policy will be included in the implementation guidelines
- 4. Perform quality assurance evaluations on each administration for the initial six (6) months of the program, or longer at the request of the OEMS.
- 5. Provide data to the OEMS every 6 months or upon request.

In conclusion, with a growing number of prehospital opioid overdoses throughout the State of Delaware, Law Enforcement agencies are encouraged to participate in the Peace Officer Intranasal Naloxone Program. The addition of intranasal naloxone has lifesaving benefits in reversing opioid overdoses in the prehospital setting. Law enforcement may be the first to arrive at the scene of an overdose putting them in the best position to administer this time sensitive, lifesaving intervention.
